

## **Arizona Report of Public Agency Performance on School-Aged Placements**

### **Indicator 5: School-Aged Placements**

Percent of children with IEPs aged 6–21 who were:

- A. Removed from regular class less than 21% of the day;
- B. Removed from regular class greater than 60% of the day; or
- C. Served in public or private separate schools, residential placements, or homebound or hospital placements.

### **Measurement**

ADE/ESS extracts the data from SAIS using the service codes entered for students with disabilities by the public education agency (PEA) for the December 1 federal child count.

### **Explanation of Indicator**

This indicator provides information about the extent to which PEAs include students with disabilities in the general education learning environment. PEAs are required to offer a continuum of service options to meet the unique needs of each student; however, they are also required to educate students in the general education classroom to the maximum extent appropriate for each student.

Measurement A refers to students who spend all (or almost all) of their day in a regular classroom and is generally considered to be the least restrictive environment. Measurement B refers to students who spend all (or almost all) of their day in a self-contained classroom on a regular school campus and is generally considered to be a moderately restrictive environment. Measurement C refers to students who spend all of their day in a facility that is isolated from a regular school campus. These placements are generally considered to be highly restrictive environments.

In most instances, the percentages will not total 100% as the placement category known as “resource” is not reported in these data.

Data are not reported for a PEA when:

- The PEA had fewer than 10 students with disabilities enrolled on December 1, 2007; or
- The PEA had fewer than 10 students with disabilities in a specific placement on December 1, 2007.

In these instances, the data are not reported to ensure confidentiality.

All data are reported for the 2007–2008 school year.

**State Target** for SY 2007–2008:

- Measurement A:  $\geq 51\%$
- Measurement B:  $\leq 16\%$
- Measurement C:  $\leq 2.3\%$
